Total cost		\$2.76	\$82.80	\$993.60

\$34.20 Saving /month
\$410.40 Saving /year

Benefits for Caregivers

1. Less diaper changes

*LivDry products are more absorbent than other products which equals less diaper changes.

*LivDry products have leakage barriers that prevent leaks and eliminate bed wetting.

2. Less time per change

*With the LivDry 2 piece system, only the pad is changed which reduces the time per change.

3. Prevent skin irritation

*LivDry products have 3 key characteristics to prevent skin irritation.

- ① Super Absorbent Pad (pulls liquid away from skin fast)
- ② Ultra-Soft Top Sheet (area that touches skin)
- ③ Breathable Outer Cover (reduces moisture on skin)

4. Less waste

*With the LivDry 2 piece system, less Briefs are used resulting in less waste.

*Some states and/or counties require diapers waste to be treated as bio hazard waste where you have to pay to dispose. In this case, less waste means less cost to dispose.

5. No change at night

*LivDry Overnight/Super types have greater absorbency for all night protection, which give the user a good night sleep. This will reduce the workload of the caregiver.
